Kuldip Boghara

Front-End Developer

Gujarat | +91 9106911156 | bogharakuldip@gmail.com

Summary

- 3+ years of experience in Front-End Development, user interface design, responsive web development, and web application documentation.
- Hands-on experience with React.js, Redux, JavaScript (ES6+), HTML5, and CSS3 to build scalable and maintainable applications.
- Skilled in all phases of SDLC including Requirement Gathering, Implementation, Testing, and Maintenance using Agile and Waterfall methodologies.
- Experience in integrating RESTful APIs, third-party libraries, and optimizing components for maximum performance across various browsers and devices.
- Strong understanding of responsive design, cross-browser compatibility, and performance optimization.
- Familiar with modern front-end tools including Webpack, Babel, Git, and npm.
- Ability to write clean, reusable, and efficient code while collaborating with UI/UX designers and backend developers.
- Working experience with Visual Studio Code, Node.js, Material-UI, React-Bootstrap, and Semantic UI.
- Knowledge of version control systems like Git and SVN.

Skills

Methodology	SDLC, Agile, Waterfall
Frameworks/Libraries	React.JS, Node.JS, Redux
IDE's	Visual Studio Code
Web Technologies	HTML, CSS, JavaScript, jQuery, JSON, Ajax, Bootstrap, TypeScript, DOM Manipulation, React-Redux, TypeScript, ContexAPI
Databases	MongoDB, MySQL
Version Control Tools	Git, SVN
Other Tools	UML, MS Visio, MS Office
Operating Systems	Windows, Linux

Work History

Software Developer   Aug 2023 to Apr 2025

Digital Attractions (CN tower) – **Toronto, Ontario**

- Developed and maintained responsive web applications using React.js, React-Redux, HTML5, CSS3, and JavaScript (ES6+).
- Migrated components to TypeScript and integrated RESTful APIs using Redux-Promise and middleware.
- Optimized component rendering for better performance across browsers and devices.
- Collaborated with UI/UX teams to translate design mockups into fully functional components.
- Used tools like Webpack, Babel, and Git for modern front-end development and version control.
- Built reusable components with Material-UI and implemented responsive layout using CSS Grid and Flexbox.
- Involved in system and regression testing using MySQL and assisted in end-to-end data integration tasks.

Front-end Developer   Jan 2022 to Jul 2023

Harsh Infotech – Scarborough, Ontario

- Developed interactive and scalable UI components using React.js, Redux, and modern JavaScript (ES6+) features.
- Implemented RESTful API calls in Node.js and managed MongoDB interactions for dynamic data-driven applications.
- Designed and maintained responsive pages using Bootstrap, Material-UI, Semantic UI, and React-Bootstrap.
- Used TypeScript for building type-safe UI modules and generated efficient client-side code.
- Participated in version control and project collaboration using Git, SVN, and Jira.
- Contributed to cross-browser compatibility efforts and mobile-first responsive design practices.

Education

Advance Diploma in Computer Networking
Centennial College (Progress Campus), Toronto, Canada

Bachelor in Computer Engineering
Charotar University of Science and Technology (CHARUSAT), Anand, Gujarat
